Compiler lab - 4

Time: 2Hours for implementation

Problem Statement:

a. Write a C program for constructing of LL(1) parsing.

Sample INPUT & OUTPUT:

Enter the input string:i*i+i

```
Stack
            INPUT
       i*i+i$
$bt
$bcf
           i*i+i$
$bci
           i*i+i$
$bc
           *i+i$
           *i+i$
$bcf*
           i+i$
$bcf
$bci
           i+i$
$bc
           +i$
$b
           +i$
           +i$
$bt+
$bt
       i$
$bcf
           i$
           i$
$ bci
$bc
            $
$
$b
$
```

success
